

A GUIDE FOR DECKS AND COVERED PORCHES

Grimsby's Building Division is here to help you accomplish your dream project.

WHY DO I NEED A PERMIT?

A Building Permit legally authorizes you to start construction of a building project in accordance with approved drawings and specifications.

Building Permits are reviewed for compliance with:

- Ontario Building Code.
- Grimsby's Zoning By-law.
- Niagara Escarpment Commission and Conservation Authorities Regulations.
- Other applicable provincial and municipal regulations.

The purpose of a Building Permit is to ensure that zoning requirements, fire and structural safety standards and other building standards are met.

WHEN DO I NEED A PERMIT?

A building permit is required for the construction of a deck or porch when:

- The deck is greater than 10m² in area.
- The deck is attached to a building.
- The deck/porch is providing a primary entrance to the house.

THREE IMPORTANT REQUIREMENTS WHEN PLANNING YOUR PROJECT

ZONING BY-LAW

When choosing the best location and size for your structure you will need to comply with Grimsby's Zoning By-Law.

The Zoning By-Law:

- Prevents overcrowding land.
- Distinguishes land use.
- Maintains consistency within your neighbourhood.

GRADING AND DRAINAGE

When planning your construction project you will need to identify where your land drainage is conveying surface water.

Your construction project should:

- Prevent water from damaging buildings and adjacent properties.
- Help keep a dryer yard year round.
- Prevent potential civil litigation for property damages.

BUILDING CODE

Building codes are the minimum design and construction requirements to ensure safe and resilient structures.

The Building Code is made to:

- Ensure increased public health and safety.
- Make buildings stronger and longer lasting.
- Prioritize sustainability.
