Notice of Public Meeting

Applications have been received by the Town of Grimsby for an Official Plan Amendment and Zoning By-law Amendment for the lands known as 19 Elm Street and 13 Mountain Street.

The proposed development consists of a 7 storey mixed-use building and adaptively reuses two key existing historical buildings known as the Woolverton House (13 Mountain Street) and Woolverton Hall (19 Elm Street). The proposal includes a total of 73 residential dwelling units, with a mix of 24 one bedroom units, 42 two bedroom units and 7 three bedroom townhouses. The ground floor of Woolverton House will continue to be used for commercial/retail uses and the second floor will be maintained with an existing 3-bedroom residential unit. Woolverton Hall will be maintained as a community hub to support a range of non-residential and community based programming and activities. A total of 100 vehicular parking spaces are provided within the three levels of underground parking, including 74 parking spaces for residents (1 space per dwelling unit), and 26 spaces for non-residents, including residential visitors. Two (2) surface parking spaces located within the municipal parking lot to the east of the subject site will be available for non-residents accessing the site. In addition, the proposal provides 88 bicycle parking spaces. Two secure bicycle storage rooms are located on the ground floor of the new building and contain space for 78 bicycles. The remaining 10 bicycle parking spaces are located outdoors.

The plan on the reverse side of this notice shows the location of the affected lands and the proposed site layout. There is also an **architectural rendering** of the site as viewed from the west (Mountain Street).

The purpose and effect of the **proposed Official Plan Amendment** is to add a site specific policy to permit a maximum building height of 7 storeys whereas 6 storeys is the maximum.

The purpose and effect of the **proposed Zoning By-law Amendment** is to permit community hub uses in the current Downtown Intensification Zone and allow dwelling units at or above the first storey. The site specific zoning regulation being requested would define Community Hub Uses as “a premises or facility providing non-residential and/or community based services activities and services, such as arts, crafts, technology and multi-media, food and beverage, recreational, social, charitable and educational activities.” The application also requests modifications to several performance standards to permit the proposed development including increasing the maximum height to 26 metres (7 storeys).

The public meeting will be held as follows:

Date: December 16, 2021

Time: 6:00 p.m.

Location: via Zoom
